

Patient Questionnaire: Reasons for delayed follow up after hospital admission for Cystic Fibrosis Exacerbation

Our goal is to provide a clinic follow-up within 2 to 4 weeks of a hospital admission for cystic fibrosis exacerbation. If you have ever been hospitalized for a cystic fibrosis flare-up at UAMS, your input can make help us make improvements. We appreciate your time and suggestions!

Section 1: Please rank the importance of the factors mentioned below that could contribute to your delayed clinic follow-up after a hospital admission

	Not at all important 0	1	2	3	Very Important 4	Comments
Long distance from home to clinic						
I thought it would be too expensive						
I did not think it was necessary						
I did not know when to come in						
Clinic difficult to reach via phone						
Clinic was full and I couldn't get an appointment						
Any additional comments/reasons:						

Section 2: Please rank the importance of following interventions that may help you follow-up after a hospitalization

	Not at all 0				Very helpful 4	Comments
Schedule follow-up appointment before discharge						
More information about importance of follow-up						
Any additional comments/suggestions
